BALIRAM GADLE

AI ENGINEER | GENERATIVE AI | AGENTIC AI | RAG | PYTHON
+91 9370792534 | baliramgadle@gmail.com | Pune, India | linkedin.com/in/baliramgadle | github.com/baliramgadle

PROFILE

AI Engineer at Tata Consultancy Services building Python-based RAG and agentic AI applications. Experience across document retrieval, LangGraph workflows, FastAPI services, full-stack integration, evaluation, security, and observability.

EXPERIENCE

Tata Consultancy Services (TCS) | AI Engineer (functional role) | Assistant System Engineer (official designation)
Sep 2025 - Present | Pune, India

- Engineered enterprise AI workflows for requirements gap identification, test generation, HR onboarding, governance, and parts cross-sell/upsell.
- Built RAG pipelines spanning document ingestion, chunking, embeddings, vector/hybrid search, reranking, grounded citations, and evaluation.
- Developed stateful LangGraph agent workflows with routing, tool calls, memory, human review, retries, and self-correction.
- Built Python/FastAPI services and React/TypeScript interfaces; integrated authentication, authorization, and enterprise APIs with PostgreSQL, pgvector, OpenSearch, SQLAlchemy, and Pydantic.
- Designed solutions, debugged applications, and presented technical demonstrations to stakeholders across AI initiatives.

SELECTED AI SOLUTION & RECOGNITION

InsurexAI | TCS AI Fridays Season 2 Regional Finals Winner; National Finalist

- Developed and pitched an insurance decision and regulatory intelligence solution for subrogation recovery and rate-filing readiness using RAG, document intelligence, hybrid retrieval, reranking, and multi-agent workflows.
- Also developed an AI-powered Retirement Insurance Advisor and Retail Fraud Transaction Detection multi-agent platform across competition stages.

TECHNICAL SKILLS

AI & Retrieval: Generative AI, LLM applications, RAG, agentic AI, LangChain, LangGraph, embeddings, hybrid search, reranking, evaluation, document intelligence

Languages & Backend: Python, FastAPI, Django, SQLAlchemy, Pydantic, REST APIs, async programming, PostgreSQL, pgvector, OpenSearch

Full Stack & Delivery: React, TypeScript, JavaScript, Docker, Git, Keycloak, OIDC, OPA, OpenTelemetry, Prometheus, Grafana, Langfuse

EDUCATION & ACHIEVEMENTS

BCA | Dr. Babasaheb Ambedkar Marathwada University, Sambhajinagar | 2022-2025 | 80% | 8.0 CGPA | A++ grade

TCS Ignite AIML Topper and Champion; ranked among the top 15 of 565 trainees | 200+ LeetCode problems

CERTIFICATIONS

Anthropic: Claude Certified Developer Foundations

Anthropic: Claude Certified Architect Foundations

Anthropic: Claude Certified Architect Professional

TCS: AI Fridays Regional Finals Winner

TCS: AI Fridays National Finalist
